

**STEALTH ACCESS DOORS:**

Another great product to add to the innovative access panel line-up by Metropolitan Door Industries.

**NEW  
Product**

**DESCRIPTION:**

Stealth Access Panels by MDI® are a stand-out architecturally-pleasing product made of glass fiber reinforced gypsum (GFRG) to blend seamlessly into a drywall ceiling or wall application. They're an attractive, rust-free alternative to metal panels or fabricated access that must be hidden in closets.

**APPLICATION:**

Designed for both wall and ceiling applications, the hinged panel can be where a locked door is needed but style is still maintained.

The hinged panel is great for use in ceiling applications where there is no space to push a door up and in wall applications when access to plumbing and electrical is needed.

The Stealth Hinged Access Panel consists of a frame, a door with concealed hinges and a key lock.

Flush Cam Lock

**ORDERING INFO:**

Item #:	Access Opening:	Rough Opening
TRHAP009	9" x 9"	15" x 15"
